Chris Marvel Brings RPA Leadership to Synch-Solutions

Nov. 18, 2021 – Chris Marvel has joined Synch-Solutions to lead the company's Robotic Process Automation (RPA) practice.

Chris is a seasoned technical leader with more than 30 years of process and automation experience as a system integrator, a field applications engineer, and a consultant. As an intelligent automation leader at a top consulting firm, he built a team of professionals that delivered intelligent automation solutions emphasizing RPA across multiple industries.

"We see RPA as a way for Electric and Gas Utilities to increase their operational efficiency and maximize their return on investment in technology assets," commented John Sterling, President and CEO of Synch-Solutions. "RPA is a strategic focus area for our organization, and Chris brings Big 5 consulting experience to drive value for our Utilities clients."

With a proven track record of delivering solutions that start with field hardware and reach through the enterprise in real-time systems to strategic analytics and business intelligence, Chris has both the field knowledge and analytical experience to deliver advanced automated solutions throughout the enterprise. He holds a Bachelor of Science degree in Engineering, Materials Science Engineering, from the University of Michigan College of Engineering. Chris has been recognized with multiple awards, and is a published author in robotics and energy exploration. He is also a member in good standing of the Society of Petroleum Engineers (SPE International).

"Chris brings a depth of consulting and RPA experience," noted Duane Akin, Managing Principal at Synch-Solutions. "We are excited to have him as a member of the Synch-Solutions team, and we look forward to seeing the RPA practice thrive and grow under his leadership."

About Synch-Solutions

Founded in 1998, Synch-Solutions is a technology professional services firm serving organizations in Electric and Gas Utilities and Government and Public Services.
